CANTON AIR CRASH **RUMOURS.**

TERRIBLE FATE OF OBSERVER.

PILOT OF BOMBING PLANE IN TROUBLE.

WAR SITUATION.

Canton, Dec. 1.

A most "remarkable report comes to hand from Samshui in connexion with the aeroplane crash schick occurred there after a bombing raid in the middle of last week. It is stated that the machine was completely wrecked, the pilot being killed instantaneously.

The observer, the report goes on, staggered out of the mahurt but abviously very much dazed, and was immediately shot down by some nearby soldiers.

It should be stressed that this remarkable story is only a rumour which has reached your correspondent at Shameen and it may not be correct.

Hospital Bemb Mishap."

Another somewhat exceptional report concerns the "unfortunate incident of the bomb which fell on the Fong Bin Hospital at Canton, killing and wounding a large number of the patients, according to reports.

Since the accident, all neroplanes have been instructed either to fly over the river or to proceed around the city, but in any case not to fly over Canton.

whose muchine the bomb dropped, I it is reported that he has been arrested by the authorities and it is likely that he will be courtmartialled and probably shot.

Pilot's Difficulties.

could hardly be held responsible.

According to his story, the bomb release machine jammed after he had released a number of bombs over the Kwangsi positions. One of the bombs, he states, was partially released, but he tried unavailingly to get it cleared.

In fact, it is said, he was very much afraid that the bump on the moment of landing might release the bomb and blow up both the machine and himself. However, the bomb unfortunately detached itself just as he was flying over the hospital when he was nearly home.

War Situation In Hand.

The situation here continues quiet and a confident air, is prevalent. Six Chinese vessels have his long career on which Herd has arrived from the North with large performed the holing-in-one feat numbers of reinforcements from and his record in this respect is Nanking. The situation certainly quite unparallelled. appears to be well in hand, the Cantonese armies having taken up Herd a solid gold putter when he from the West to the North Rivers. | Reuter.

In the meantime the Kwangsi troops have advanced still nearer and have occupied Shiuhing. This they did without fighting, the Cantonese having withdrawn to !their defence line above Samshui the day before.

New Planes in Canton.

The aviation field at Tai Sha Tan has been especially busy lately; large numbers of air raids are being carried out daily on the Kwangsi positions. Further acroplanes have arrived from the North to supplement the Provincial Air Force.

Amongst the latest arrivals are three enormous Junkers all-metal monoplanes; these are the well known German machines, very enormous weight in bombs and carrying out long distance flights, known Warrior." Two of them are fitted up as hydroplanes with floats, the other being ed one of the sections.-Reuter. , the usual aeroplane. Our Own Correspondent.

appearance before Mr. A. W. G. H. Grantham at the Central Police Count this morning, being accompanied by Mr. E. Davidson, his solicitor, in the case in which he is charged with offences -under the Perjury and Larceny Ordinances in connexion with the affairs of the Instone Banking Corporation.

Mr. Somerset Fitzroy, appearing for the police, suggested next Monday for the henring of the case, to which Mr. Davidson agreed, stating that he was sure Mr. Fitzroy would be able to say the time he (Mr. Davidson) would require to prepare the defence.

Mr. Fitzroy said the time entaildepend on whether Mr. Brewer chine, apparently not seriously would give evidence himself. He thought there was plenty of time ahead of them if they fixed the hearing for next Monday. Chinese "Mosquito" Papers.

[To The Editor of Hangkong Telegraph.]

Sir,-Allow me to draw, through your kindness, the attention of those who have the Education of Chinese youths in Hongkong at heart to the evil influence of the Chinese Siao Pao or "Mosquito"

A few years ago, one was start-

ed. It was the forerunner of as many as 63 kindred papers. Fortunately, many of them were short-lived, only 16 now being in existence. All these "mosquito" papers have, for their material, the private lives of those, whose conduct falls far below mention in polite society. "Street angels," "cafe parasites," etc., are drawn with wonderful vividness. The language, too, is admirable, being both direct and clear. What adds force to this style of writing is the constant use of colloquialism, slang, and vulgarism. And, the way of presentation is either satirieal or cynical. Their humour -if we condescend to call it such -is always morbid, seldom healthy.

Such material written in ruch a style and presented in such a way can only serve to corrupt the morals of those who read them, particularly students whose ethical character is in the procesof Tormation. Considering the evil influence of these "mosquito" papers, it would be a blessing upon the rising generation of Chinese citizens of Hongkong should the Director of Education see his way to influence the Headmasters and Headmistresses of Colleges and Schools, both Government and private, to try their best to stop the reading of "mosquito" papers by students either at home or in schools. ATTENTION OF GLASS MANUFACTURERS.

The sand produced from the Pak (白沙塊) Sand Field at Pik Kap, Ping Hoi, in the Wai Young District, Kwong Tung, has been known to be the best material in the world for the manufacture of glass and a medal was won at the Panama Exhibition some years ago. " Of late it has been analysed by the Hong Kong Government Analyst and a certificate was obtained certifying to its qualifies. . On account of the unsettled political situation and the constant wars, operations were suspended and in recent years certain unscrupulous persons have fraudulently obtained permission from the Authorities to trespass on our rights. But law has given us protection 'and after having lodged our protest, the Canton Government, through its Reconstruction Bureau have explored the matter and have now given back our rights and the recognition of our ownership to the mine. Adequate protection both from the military and the Magistrate of the District has been assured us and we have also registered our rights with the Ministry of Agriculture and Mining, at Nanking. We are now commencing to operate the mine on a large scale under the name of the Tai Lee Mining Co., and we shall be able to meet all demands for supplies. There will be no irregularities as previously in the way of shortage of supplies. All intending buyers are cordially requested to communicate with our Head Office at No. 25, Chiu

Loong Street, Hong Kong. We are ready to give all facilities and are also prepared to enter into contracts for regular supplies.

The programme is a well assorted one, dances, songs, music, concerted items which might be called dances or a combination of dance and drill but quite characteristic and unlike anything else. The dances and the music all are the most natural things in the world. Somehowever they give one the feeling o A most pleasant day-was spent plorious intoxication, but there is throw oneself into the rythm too and simply go mad. There is gaiety; and in some of the songs, the plaintivenes of a whispering wind whistling through the palm trees, while in the background, as it were there is too the resistless monotonous tempo of the sea. As natural music, interpreting and painting pictures of what they have. as their surroundings, it surpasses 19 everything. Their dances are just a bodily expression of what is aud-

W. E. L. Shenton ible in their music. Words are very paltry things, no one has ever succeeded (without gounding verbose and hysterical) in conveying the beauty of nature in prose or poetry, and in trying to describe a most artistic and yet, or most natural entertainment, one

AMERICA'S BIGGEST AEROPLANE.

FORKER ALMOST WRECKED IN CRASH.

New York, Nov. 27. Careening at a madly furious speed, "clipping telephone poles. chimneys and radio aerials, Fokker monoplane F-32, largest aeroplane ever built in the United States, crashed onto the roof of a house at Carleplace, Long Island, to-day.

The 'plane and house immediately after the crash were wrapped in flames. The house was completely destroyed and the F-32 was almost completely wrecked.

M. F. Boggs, pilot of the F-32, and his mechanic, Harry Me-Donald, miraculously escaped with only superficial injuries.

The accident to the Fokker constatuted the third roof-top crash within a week in the congested New York area;

Sold electe on a winter's night, but most of its the to take the chill off with a hot water bottle.

We look forward to going to bed, that is, if we use a really reliable bottle like the "Pares." A leaby bottle which aparters when it is being filled and may burst, is not only useless, but positively dangerous. The "Pares" bottle is all a perfect hot water bottle should be. It fills easily and never leaks. The stopper has a special washerless arrangement and all seams are reinforced. The makers know all this and so a printed guarantee is attached to each bottle.

MOTOR LEGISLATION.

One of the most interesting features of the new Road Traffic Bill, which is shortly to be introduced at Home, is the inclusion a provision for compulsory insurance against third party risks. The Government has for a constderable time contemplated legislation along these lines, the Ministry of Transport having been in conference with representatives of motor insurance organisations with a view to clearing away any difficulties that remained on the project. If we can judge by the anticipatory comments in the Home press, the scheme seems assured of general approval, despite some opposition in certain quarters. Those who are against it are disturbed somewhat by the fear that insurance companies will be able to charge any premium they like, that unlucky people who have frequent accidents but who are not reckless may be debarred altogether from driving, and that the fact of every car being insured may make drivers more irresponsible than before. No doubt, however, the Government will make some provision for deal- at the Khabarovsk conference. 1907 at a concert in Leningrad and theft. ing with such difficulties. One of the fears that has been

expressed is that some of the insurance companies may suddenly increase their rates when the new law comes into force. Such companies, however, would naturally be immediately suspect. Morever, there should be enough competition for insurance to keep the rates low, and in the event of a "ring" being formed, the Government would be justified in stepping in and fixing maximum rate. As one commentator has pointed out, compulsory insurance is in force in Switzerland and in some parts the United States, and it has not been found that insurance has increased the recklessness of motorists. On the contrary, reckless driving has diminished. Such an effect may be produced by a continuation of the no claims bonus system at present employed by most of the insurance companies. Possibly it may be found advisable to appoint some kind of Motor Accidents Arbitration Court, where blame and is advertised to take place on damages may be apportioned by re- Saturday, January 11. Those wish- of six months hard labour. presentatives of the motoring or-

commended that certain persons were not insurable at the ordinary fixed premiums and the affected motoristà were obliged to suo for resh policies through the courts, magistrates would soon be able to weed out the reckless drivers. Taking it all in all, compulsory insurance may be expected to save magistrates, motorists,

traffic police and insurance com-

panies a great deal of trouble.

It is foreshadowed also that the new Bill will propose the abolition of the speed limit for all motor excepting charabanes, and .. heavier commercial trucks. As is known, the present statutory limit of twenty miles an nour is not enforced—a fact which in itself is sufficient justification to warrant its abolitions tightening up of the penalties for dangerous driving, including suspension of a driver's licence on second conviction. This is obthe problem than to attempt to enforce a "ridiculous spand-limit. Hongkong will no doubt follow with interest the fate of the new Bill, and it may well be that some of its provisions will eventually be incorporated in our local laws.

various sources, the four days that this morning. have elapsed since the unexpected announcement was made have failed to produce a clearcut definition of the attitude of the Nanking Government. The situation, indeed, has taken on an air of mystery. The suspicion is now entertained that Dr. C. T. Wang knows more about the affair than he is prepared to admit. It is even suggested that Nanking, while not a party to the negotiations, was made fally "acquainted with Mukden's intentions in the matter, and is privy to the proceedings inasmuch as no attempt has been made to restrain General Chang from offering such humiliating terms in suing for peace. other small items in the news add to the obscurity. The Very Idea!

The filming of a mannequin parade in a London drawing-room is the latest experiment of the British Movietone News. Though highly successful, it was not without its difficulties.

The show took place in the house of Mrs. Rosita Forbes, the explorer and novelist. Five hundred people had accepted Mrs. Forbes's invitation: 793 attended and endeavoured to sit on 48 chairs. Just how many gate-crashers there were in the gathering is a matter on which social statisticians differ.

Those present included Lord Brentford and his family, Lady Erroll. Lady Melchett. Malmesbury, Lady Grainborough, Princess a von Bisbarck, the Comtesse de Sibour, Lady Ashfield and Lady Bective.

BOLIVAR?

Simon Bolivar in his carliest days was spoken of as the Napoleon of South America, so fine a soldier was he, and so decisive the victories that he guined.

Born in the Spanish colony. of New Granada in 1783, and educated at Madrid, Bolivar soon dedicated himself to the task of freeing the colonists from the yoke of the Mother Country. His party issued a Declaration of Independance in 1811, and a long conflict ensued until 1819 when Bolivar was given the chief command, whereupon he fought two decisive battles and proclaimed the "Republic of Columbia." Hostilities were finally concluded two years later by a further victory at Carabobo. The constitution of Columbia was then adopted, with Bolivar as the first president.

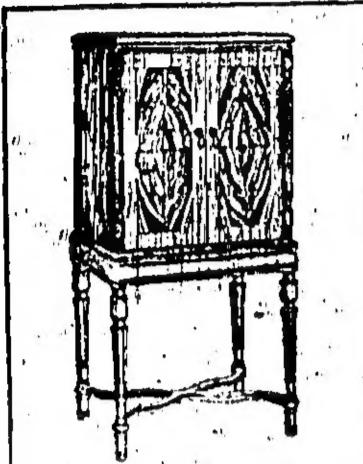

The great liberator then turned his attention to Peru, which he freed from Spain in 1824, and to Bolivia, freed in 1825, both of which countries Bolivar was chosen dita-

His later days were marred by a good deal of suspicion and jealousy on the part of fellow republicans, but in the end he was referred to no longer as the Napoleon, but as the Washington of his people a man who had devoted his life to their liberation.

First Radio Exhibition.

LIONGKONG'S first radio exhibi tion will be opened the Hon-Mr. W. T. Southorn (Colonial Secretary) on December 5 and will be continued on the two succeeding days. It promises something. entirely new for the Colony and will undoubtedly do much to further stimulate interest in radio generally. Not only will local wireless dealers have their apparatus on show but there will be a representative display of receivers made by amateurs.

Home construction is one of the most fascinating branches of radio work and judging by the number of kits and parts sold in the Colony is quite popular here. New circuits can be tried out until seeming perfection is reached, while considerable ingenuity can be displayed in the mounting of the receiver in a suitable cabinet.

In connextion with amateur construction a competition, for which prizes will be offered has been organised by the Exhibition authorities. The conditions are such that professional operators and those thigaged in the trade are not allowed to enter so that the competition will be strictly confined to amateur limits.

The conditions are fully set out

(6) A charge of one dollar will be made per set exhibited not more than five sets to be submitted by each competitor. (7) The decision of the ludging committee to be con-

sidered final. (8) The exhibition authorities do not accept any responsibility for any apparatus exhibited.

Another feature of the exhibition will be the fancy dress dance to be held on Saturday night in the hall adjoining the exhibition rooms. The dance will start at 9 p.m. and will continue until midnight, the music, of course, being provided by radio. Prizes will be given for the best fancy dress and for a spotlight waltz. While it is not a new departure to have dance music provided by radio at a function of this kind there have only been one or two in Hongkong. There is a certain novelty in the proceeding and there seems little doubt that this part of the exhibition programme will also secure excellent support.

The exhibition will provide an opportunity for many local residents who have not heard the transmissions from ZBW to judge the station's capabilities and it may be that an opportunity will be afforded of reception from more distant stations. Many new stations have been opened in the Far East in recent years and the owner of a powerful set has a fairly wide range of stations from which to choose,

It should be noted that on Thursday and Friday the Radio Exhibition will be open from 6 p.m. until midnight and on the Saturday from 2 p.m. onwards.

Wireless In Hongkong.

(BY G. SWINBURNE)

No better indication of the improvements made in the local broadcasting service in recent months is need than the rapid increase in the number of radio receivers now installed throughout the Colony. Under the recently amended regulations the Government keeps track of all wireless apparatus sold, it requires each receiving station to be duly licenced and by these means secures an effective check on the popularity or otherwise of wireless broadcasting.

The new policy adopted with regard to ZBW has been followed by most gratifying results. For a time the station was nobody's child, it transmitted daily, rather monotonously but nevertheless bravely, to a pitifully small number of listeners. A year ago about a hundred people had licenced receiving sets—to-day the number is approaching 700 it is understood. Up to the end of last month the Radio Office had issued 545 licences and it is stated on good authority that the first four-teen days of this month saw another hundred licences sold.

If further evidence of the growing interest in broadcasting were needed it may be seen all over the Colony in the form of aerials which spring up, mushroom-like, almost daily. The shops of the radio dealers are crowded and wo may liken the present time in Hongkong to the days of 1922 and 1923 in England when broadcasting first caught the imagination of the public.

In those days the crystal set held pride of place. It is almost unknown in Hongkong where the Fleming valve hold sway. So in Hongkong there is no repetition of the hectic days in England about six or seven years ago when enterprising individuals dug in the hills for crystals, wrapped pieces in cotton wool and dressed them in fancy boxes to sell at impossible

It is impossible to draw a local picture of the members of a family, all constrained to painful silence, solemnly passing round the solitary pair of headphones attached to a tiny crystal set which was, perhaps, made in a matchbox or which had its essential parts stuck in a piece of plasticine.

Hongkong's interest has developed much less rapidly and much less romantically. For time there were a few experimenters and also a few broadcast listeners-the latter probably regarding their radio receive as a box of mysteries producing music by some method probably best left not understood. People gradually awoke to the fact that ZBW, which was nobody's child in the sense that its transmissions fell, one might say, on barren ground, had become a lusty youngster clamouring for and almost demanding for and almost demanding atten-

The appointment of a Committee of control to nurse the youngster has been followed by a comparatively rapid spread of enthusiasm on the part of the public. The recent work of individuals who have played no small part in this much belated but still welcome interest in local broadcasting has received due publicity. It is reflected in the improved 'programmes, longer hours of transmission and the introduction of many new features.

ZHW's Entertainments.

The service has advanced further in a few months than it has during the whole time of its existence—not entirely because the responsible authorities were unwilling to do more, but because there was little or no inducement to do more.

Hongkong's broadcasting station faces a bright future. That the service it maintains possesses considerable entertainment value there is no doubt. If it were otherwise the shops of the radio dealers would see far fewer customers and only isolated licences would be issued.

It need not be stressed, therefore, that ZBW is worth listening to. We cannot expect a minature 2LO and it would be unfair to make comparisons. But the concepsus of opinion among local listeners is undoubtedly that ZBW offers attractive entertainment. If it does this, then it fulfills it purpose, and deserves the whole-hearted support of the community, which, of course, need not be reminded that the possession of an adequately powerful receiver makes the reception of other than local programmes possible,

Some may be satisfied with the local station. Others may wish occasionally to search further afield. The needs of both are catered for in Hongkong where, at long last, there is a long overdue enhusiasm for wireless broadcasting. The future points to even greater popularity and the relegation for ever of the indictment that radio interest had spread almost everywhere except to Hongkong.

CTUDY attractive people, men or women. Note the tremendous part gleaming, white teeth play. Don't believe your teeth are naturally dull, "off color." You can disprove that in a surprisingly short time.

Modern science has found a new way in . tooth and gum care. A way different from any you have ever known.

Run your tongue across your teeth, and you will feel a film, a viscous coat that covers them.

That film is an enemy to your teethand your gums. It clings to teeth, gets into crevices and stays. It absorbs discolorations and gives your teeth that cloudy, "off-color" look, Germs by the millions

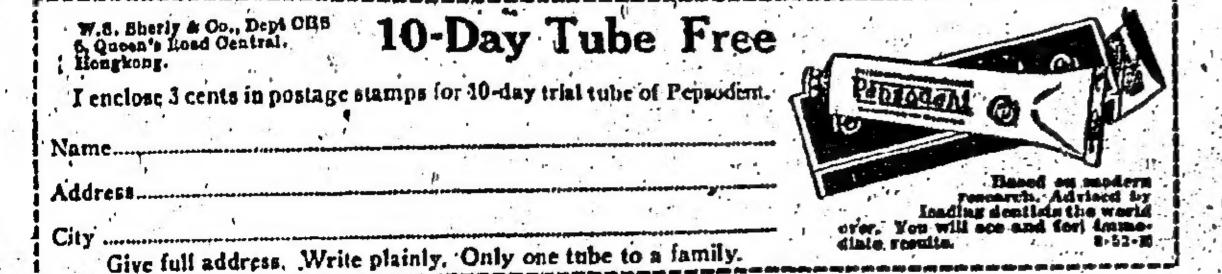

breed in it and lay your teeth open to decay. And they, with tartar, are the chief. cause of pyorrhea and gum disorders.

Old-time methods fail in successfully combating film. That's why your teeth remain dull and unattractive.

Now, in a new-type dentifrice called Pepsodent, dental science has provided effective combatants. Their action is to curdle the film and remove it. Pepsodent also firms the gums.

our love goes out to the countries from whence we came and whither we hope to return. But it is more than the love of place. It is the love of a long and honourable history, the veneration of a series of customs and traditions which not we alone but the world has proved to be good, and best a fidelity to ideals which we should hate to debase. So patriotism at its best is a loyalty to fine virtues, a dedication of self to the highest and best one's country has produced.

If I were to speak long of the country of which St. Andrew the patron saint, I would say that the patriotism should not be, in fact is not parochial or narrow.

It has been said that the Caledonian is conservative, while the Englishman is aloof. I often think it a misunderstanding. Is it not a natural fear we have that perhaps we may surrender some of

You know in Scotland it took a long time to dispose of the pre-centor. He held on rebelliously and furfously, there in his little pulpit above the ministers. Loyally to the end he weilded his tuning fork before paraphrase and psalm and led the praise. He withstood the invasion of organ and choir for a long time, and is still to be met in some remote places.

Descendant of John Knox.

He represented a faith in some ways grim and austere. He was a true descendant of John Knox, he had a gaunt theology and a for-bidding exterior. But there was something more than that.

Deep down it was a grim deter-mination to hold on to what he believed to be right. The Covenanter may have appeared obstinate, but he handed on

The winners improved greatly in the second set, and always had the measure of their opponents.

The second mixed doubles was between M. W. Lo and Miss Enid Lo; and Canavarro and Miss Collaco, the Hongkong pair winning 8-6, 6-0. Gordon Luth, Kong, Canavarro and Ng Sze-kwong, who were the next four to occupy the court, were frankly disappointing and failed to give anything but a very mediocre display, Practically all four played like tired men, and the tennis was lifeless. The fact that Lum and Kong won 6-3, 5-7, 8-6, just about represents their superiority.

The Afternoon's Matches.

The best innich of the afternoon was undoubtedly that in which Gordon Lum and Wade defeated S. A. and H. D. Rumjahn by two sets to one. Paul Kong and A. L. Rumjahn, calling themselves "Tientsin," beat Ng Sze-kweng and Canavarre, who represented "Mneao," in straight sets, while M. W. Lo and T. Honda (Japan) met the same fate at the hands of Lum and E. C. Fincher (Australia).

"All right, Payne. Look for money, and if you find any besides petty cash, let me know, but don't touch it. Now, tell Boyle to bring Dowd in."

With Mrs. Hogarth's tablet of cheap, lined writing paper on his knee and a pencil poised, Bonnie Dundee watched through one of. the joinings of the three-panel sereen as Henry Dowd was ushered into the room.

To the diffidence which had characterized this very commonplace-looking man of near middleage, when Dundee had observed him at the dinner table that evening was now added a mild, almost apologetic mixture of apprehension and excitement. He came in dabbing at his forehead with a fresh white handkerchief, and, an Strawn addressed his first question; took off his pince nez and began to polish the lenses nervously,

"Well, Dowd, you know what's happened here to-night. That's your room next door, isn't it? Did you hear or see anything to-night that might throw light on the tragedy?". Strawn asked briskly.

The pale grey eyes blinked twice, before Henry Dowd carefully adjusted the glasses upon his nose." "No, sir," he answered. "That ds, nothing to speak of-"

"Then perhaps you'd better speak of it," Strawn snapped. "Well, sir, I was asleep."

"When did you go to bed?" "About 10 o'clock, as usual. I'm not much on the social life, not a very good mixer." Henry Down explained carefully, and Dundee jotted his words down in a hasty shorthand of his own. I came up to my room about 9, after sitting on the front porch after supper-dinner, they call it here. I pottered around the room for awhile, then took a bath and went to bed. About 10, that was. I read a magazine 'till I fell asleep, with my light burning, and didn't wake up till some time

"And what woke you?" Strawn demanded, impatiently.

"It was that bird squawking, or at least, that's what it sounded like," Dowd answered, painstakingly, his eyes glancing toward the parrot.

"Was the bird talking?" "No, just squawking, as if it was sore about something," Dowd answered. "I've heard it a good many times, though this is the first time I've ever laid eyes on it. I didn't hear anything else,

CHINESE "AT HOME."

ENJOYABLE FUNCTION AT CAUSEWAY BAY.

Opportunity was taken by the committe of the Chinese R. C. to secure the services of Mr. A. L. Rumjahn, the tonnis champion of Tientsin, to give an exhibition match 'on the occasion of the annual "At Home" of the Causeway Bay Club on Saturday. The visitor was matched against M. W. Lo, the Colony's Champion, who won in two straight sets, a further set, which was played after tea, going to the visitor.

The match was the best of three sets but after ten it was decided that another set should be played. Rumjahn was the fresher of the two and accurate. Lo was not playing as consistently 'na before ten but forced the set to ten games before losing it.

The final scores were 6-1, 6-3, 4-6. During the afternoon, the Club's "B" Tenn, which won the Hongkong Tennis League, entertained three pairs selected from "The Rest" and won on all courts.

Miss Kwok Sheung-man, daughter of Mr. Kwok Siu-lau, distributed the prizes won in the Club's tournaments held during the year. Before asking Miss. Kwok to perform the ceremony Mr. Ng Sze-kwong, chairman of the Club welcomed the visitors.

After giving away the prizes Miss Kwok, in returning thanks for having been asked to distribute the cups, congratulated the winners and, commenting upon tennis, mentioned that she had always paid the closest attention to the performances of the Rumjahn cousins and the Lo brothers. Miss Kwok was the recipient of a bouquet of roses.

Neat Stalls.

The Church Hall from the main entrance presented a gay sight, with its multiplicity of well stocked stalls, which were neatly decorated by the various ladies in charge. One section of the hall was devoted to a "Competition Corner," where the visitors found brain exercise in guessing the weight of cakes, gauging the contents of bottles, and similar mental recreation.

There was no doubt as to the quality of the goods lavishly displayed at the stalls. The bulk of the offerings in the sweets, cakes, and vegetable sections were home made or grown, and they sold
